

**DEDICATED MODELS  
FOR MANY FIELDS  
OF APPLICATION**

One step beyond.

Mic-Fi medical is a line of versatile portable digital devices with Wi-Fi transmission (class 1 certified). Every device can be connected to tablets or smartphones through Mic-Fi Apps (iOS or Android, or through a Wi-Fi/USB connection to computers and laptops (Windows or Mac). Using Mic-Fi dedicated softwares and Apps you can take pictures and make video..

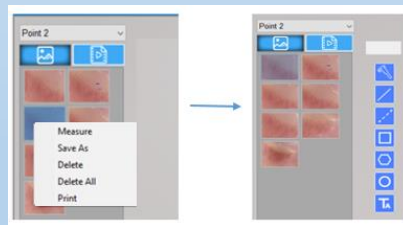

# Mic-Fi Capillaroscope

## FEDMEDMICFIP5MSWC

has been developed over the course of some years thanks to the support of a staff of rheumatologists of the Molinette hospital in Turin.

The device has the great advantage of polarizing light for a better view without reflections.

# FEDMEDMICFIP5MSWC

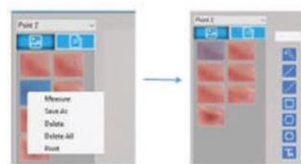

## **FEDMEDMICFIP5MSWC**
